**Notice of Oral *Ex Parte* Communication**

RE: *In the Matter of Wireless Communications Association Int'l Petition to Amend Section 27.53(m) of the Commission's Rules; RM-11614*

Dear Ms. Dortch:

On May 23, 2011, on behalf of Wireless Communications Association International (WCAI), Fred Campbell, WCAI President and CEO, and Cathy Massey, Pete Gelbman and Jamie Cornelius of Clearwire Corporation met with Louis Peraertz, Legal Advisor on Wireless, International, and Public Safety to FCC Commissioner Mignon Clyburn.

During the meeting, the participants generally discussed the issues summarized in the attached presentation, associated with WCAI's Petition for Rulemaking regarding out of band emissions and wider channel bandwidths in the Educational Broadband Service (EBS) and Broadband Radio Service (BRS) spectrum. WCAI has proposed that the Commission amend its rules regarding out of band emissions and larger channel bandwidths in the 2.5 GHz spectrum band to accommodate next generation broadband services and better align the FCC's rules with the current 3GPP methodology. Mr. Campbell and the Clearwire representatives described the benefits of allowing out of band emissions and wider channel bandwidths in the 2.5 GHz band, including greater throughput and speeds.

Pursuant to Section 1.1206(b)(2) of the Commission's Rules, notice of this *ex parte* communication is being filed electronically. If you have any questions regarding this matter, please do not hesitate to contact the undersigned at 202-452-7823. Copies of this letter are being sent to the participants via email.

Sincerely,

Fred B. Campbell, Jr.  
President and CEO  
WCAI
